General Statements

of Health and Safety Policy

Section I

General Statement of Health and Safety Policy

G K Interiors is an organisation that places high value on maintaining an effective system of Health and Safety Management that transcends all aspects of work. Its primary intent is to complete any given project while conscientiously adopting all reasonably practicable measures to avoid any risks to employees or others that may be affected by its actions or omissions. G K Interiors recognises that the aforementioned goals are achieved through a system of committed integrated co-operation and the dedication of sufficient resources to any task to permit it to be carried out safely and with minimal risk to those involved. This statement is a formal declaration of G K Interiors' intent to achieve what is herein laid out.

The Managing Director has the responsibility for ensuring that that the above intentions are acted upon and the Policy is implemented in the planning, execution and day-to-day running of all projects.

G K Interiors will implement all procedures in accordance with all relevant statutory instruments and regulations, and fulfil any duties placed upon it by such laws.

All employees and sub-contractors are expected to adopt a similar perspective on Health and Safety and will be expected to behave in such a manner that takes reasonable care of their Health and Safety and anyone else's who is affected by their actions or omissions. Furthermore, employees will be provided with training to ensure the safe execution of all their duties.

G K Interiors will endeavour to ensure that all potential risks are foreseen and, as far as is reasonably practicable, controlled. Attainment of this goal will be reached through a diligent process of Risk Assessment and implementation of identified control measures.
